

Junior Engineering Internship

Summer 2026

About C-Motive

C-Motive is a startup in Middleton, WI commercializing electric motors with sustainability and efficiency as top priorities. This technology was born out of UW-Madison and will be the first of its kind on the market.

Half of all electricity globally is consumed by electric motors. C-Motive's patented electrostatic motor technology delivers 95%+ efficiency, uses no rare-earth metals, less than 1% the copper, and has the potential to deliver over a gigaton of carbon savings in the next decade.

The global motor marketplace is \$100B annually and C-Motive is poised to become a significant player in the coming few years. No one else in the world is developing electrostatic machines and our goal is to become the reference motor technology for a new generation of products.

A C-Motive Electrostatic Motor

Junior Engineering Internship

C-Motive is seeking an eager, high-energy junior engineering intern that will assist the drive development team in a wide variety of engineering tasks. We are looking for candidates curious about our technology, and excited to learn new skills in engineering and product development. This role will have a flexible focus depending on the individual's strengths, including an opportunity to own projects from conception to completion.

What You Will Do

- Design and test cutting-edge motor drive technologies along with the electrical and mechanical engineering teams.
- Complete a variety of hands-on, technical and nontechnical tasks.
- Develop projects based on personal engineering interests.

Qualifications

- Strong work ethic and desire to learn.
- Strong written and verbal communication skills.

Bonus Qualifications:

- Knowledge of electrical circuit theory.
- Experience with oscilloscopes, DMMs, power supplies.
- Experience with rapid prototyping technologies (3D printers, quick-turn fabrication, etc.).
- Experience with electrical assemblies (soldering, crimping, breadboarding, etc.).

C-Motive is committed to creating an inclusive environment for all our employees and are seeking to build a team that reflects the diversity of the people we hope to serve with our revolutionary products. We are proud to be an equal opportunity employer.
